

To

RAJ RAJESHWAR MAHARAJA DHIRAJ

HIS HIGHNESS

MAHARAO SIR KAISHREE SINGHJI SAHIB ..

BAHADUR, G.C.I.E., K.C.S.I.,

OF SIROHI.

Dated Abu Road, the 10th January 1907.

MAY IT PLEASE YOUR HIGHNESS,

I beg most respectfully to submit herewith the Annual Administration Report of Your Highness' State for the year 1907-08.

I beg most respectfully to remain,

Your Highness,

Your Highness' most obedient and humble Servant,

MILAPCHAND A.

Dewan Sirohi State.

To

RAJ RAJESHWAR MAHARAJA DHIRAJ

HIS HIGHNESS

MAHARAO SIR KAISHREE SINGHJI SAHIB ..

BAHADUR, G.C.I.E., K.C.S.I.,

OF SIROHI.

Dated Abu Road, the 10th January 1909.

MAY IT PLEASE YOUR HIGHNESS,

I beg most respectfully to submit herewith the Annual Administration Report of Your Highness' State for the year 1907-08.

I beg most respectfully to remain,

Your Highness,

Your Highness' most obedient and humble Servant,

MILAPCHAND A.

Diwan Sirohi State.

Administration Report of the Sirohi State for the year 1907-08, commencing with 1st November, 1907, and ending with 31st October, 1908.

CHAPTER I.

General and Political.

1. Geographically situated between latitude 24°-22' and 25°-20' North, and between longitude 72°-10' and 73°-10' East, the Sirohi State comprises an approximate area of 1,964 square miles, with a population of 1,54,544 according to the Census of 1901, and an annual revenue of Rs. 4,00,000/-. The State pays a tribute of Rs. 6,881-4-0 per annum to the British Government, or a moiety of what it originally was prior to the Mutiny of 1857-58, when one-half thereof was remitted by the Government in consideration of meritorious services. Area and population.

The present Chief of Sirohi is His Highness Maharao Sir Kaishree Singhji Bahadurji, G.C.I.E., K.C.S.I., aged 51 years. He belongs to the famous race of Chauhan Rajputs of whom Prithiraj, King of Delhi and Ajmer, is well known in early Indian History as a brave and renowned warrior. The only surviving male issue and Heir-apparent to the *Gadi* of Sirohi is Maharaj Kumar Shree Saroop Singhji Sahib, who is now in the 21st year of his age and is well educated under expert European tuition. Chief.

2. The nuptials of the Maharaj Kumar Saroop Singhji Sahib with Bai Shree Krishna Koowarji, daughter of His Highness Maharao Sir Khengarji, G.C.I.E., of Bhuj were celebrated on the 20th November, 1907, at Bhuj with *eclat* and rejoicings befitting the occasion. His Highness the Maharao Sahib Bahadurji of Sirohi accompanied the bridegroom's party, which consisted of over 500 persons. Notable events.

3. The Thakur of Nibaj Raj Shree Himat Singhji died on the 31st July 1908 leaving behind him a son Mohbat Singhji who succeeds him.

4. Lt. Col. H. V. N. Harrington, I.M.S., Residency Surgeon and Chief Medical Officer, Rajputana, and Lt.-Col. R. C. Macwatt, Residency Surgeon, Western Rajputana States, paid a visit to the Capital in December, 1907. Visits.

5. The third Baiji Sahiba, married to the Maharaj Kumar Sahib of Bhuj, came to Sirohi on the 8th December, 1907, and returned to her marital home after staying for about a couple of months.

6. The second Baiji Sahiba, married to the Chief of Jaisalmer, came to Sirohi on the occasion of the marriage of her brother, the Maharaj Kumar Sahib, and left Sirohi on the 28th February, 1908, for her Capital.

7. His Highness the Maharao Sahib Bahadurji's eldest son-in-law, Maharaj Kumar Prithi Singhji of Banswara, visited Sirohi on the 3rd March, 1908, making a stay of but 5 days and returning to his destination in the company of Baiji Shree Anand Kunwarji Sahiba.

8. His Highness the Maharao Sahib Bahadurji's youngest son-in-law, Maharaj Kumar Vijayrajji of Bhuj, paid a visit to Mount Abu in May, 1908, and was the guest of His Highness for about a month.

9. His Highness the Maharao Sahib Bahadurji's younger son-in-law, His Highness the Maharawalji Sahib of Jaisalmer, halted at Abu Road for a day *enroute* to Bombay in August, 1908.

10. Maharaj Kumar Saroop Singhji Sahib visited Ajmer and Indore during the year in the company of his tutor, Lt. H. R. N. Pritchard.

Changes.

11. Mr. Milap Chand Anand Chand was re-appointed as Diwan of Sirohi *vice* Mr. Saratchandra Roy Chaudhry.

12. Lt. Col. W. C. R. Stratton, I.A., Resident, Western Rajputana States, having proceeded on furlough, was succeeded by Mr. H. V. Cobb, M.A.L.L.B., I.C.S., and on the latter's transfer to Kashmir, Mr. V. Gabriel, I.C.S., C.V.O., assumed charge of the office on the 19th September, 1908.

13. Appendix I is a list of the high State and Residency Officers.

CHAPTER II.

Administration of land revenue.

Talati or Bighoti system.

14. As stated in last year's report, the Talati system was, as a tentative measure, confined only to the Santpur, Rohera and Pindwara Parganas, but during the year under report it was extended to Sirohi City, Mount Abu and the Posalia Pargana.

In order, however, to set forth clearly the extent of the increase in Revenue in the first three Parganas by the introduction of the Talati system a Comparative Statement is subjoined, showing the annual yield from 1898-1899 to 1902-1903 and from 1903-1904 to 1907-1908, during which latter period the system has been in force :—

Years.	Kharif Crop.			Rabi Crop.			Total.		
	Rs.	A.	P.	Rs.	A.	P.	Rs.	A.	P.
1898—1899 ...	10,764	14	6	16,985	11	0	27,750	9	6
1899—1900 ...	913	1	9	5,642	3	6	6,555	5	3
1900—1901 ...	6,953	5	0	11,732	14	0	18,686	3	0
1901—1902 ...	1,241	12	9	11,615	13	3	12,857	10	0
1902—1903 ...	6,714	9	6	15,761	0	9	22,475	10	3
Total ...	26,587	11	6	61,737	10	6	88,325	6	0
1903—1904 ...	11,458	6	6	21,036	6	0	32,494	12	6
1904—1905 ...	5,744	1	6	12,273	1	6	18,017	3	0
1905—1906 ...	18,661	11	0	15,755	15	6	34,417	10	6
1906—1907 ...	28,364	8	2	18,593	9	6	46,959	1	8
1907—1908 ...	29,287	15	5	46,324	11	6	75,612	10	11
Total ...	93,516	10	7	1,13,983	12	0	2,07,500	6	7

The foregoing figures will show, at a glance, the rapid and remarkable development in the Land revenue of Santpur, Rohera and Pindwara and, when it is borne in mind that the figures from 1898-1899 to 1902-1903 represent the figures in Bhilari currency, whereas those from 1903-1904 to 1907-1908 are in British currency, after the discontinuance of the Bhilari currency under the orders of Government, an increase of 20 per cent calculated on the total receipts in Bhilari currency should be made to the huge increases herein shown, which would swell the total revenue for the last five years from Rs. 2,07,500-6-7 to Rs. 2,22,221-5-5, or Rs. 1,33,895-15-5 over and above the receipts for the first five years. While 1899-1900 and 1901-1902 were unfavourable seasons, 1904-1905 and 1905-1906 were similarly unfavourable, in addition to which the Rabi crops for 1906-1907 were entirely destroyed by frost and blight, and yet such a very successful result was achieved through the perseverance of the officials charged with the introduction and carrying out of the Talati or Patwari system.

15. As regards the results attained by the Talati system in the Sirohi city, on Mount Abu and in the Posalia Parganah during the solitary year of its introduction therein, the following table will suffice to show that, while the average annual total yield for the past ten years amounted to Rs. 17,696/- the total yield during 1907-1908 alone was Rs. 24,484-8-3 or Rs. 6,788-8-3 in excess of the average, Posalia itself representing an increased revenue of Rs. 4,961-5-9 :—

	Sirohi.	Mount Abu.	Posalia.	Total.
	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.
Average annual yield for the past ten years ...	957 0 0	1,035 0 0	15,704 0 0	17,696 0 0
During 1907-1908 ...	1,602 15 0	2,216 3 6	20,665 5 9	24,484 8 3
Increase ...	645 15 0	1,181 3 6	4,961 5 9	6,788 8 3

Here again, the figures representing the average annual yield are susceptible of reduction at 20 per cent for all the ten years, as they have been computed on the basis of the Bhilari currency, whereas the figures for 1907-1908, show the collections actually made in British currency. The sum total of the average thus reduced by Rs. 2,949-5-4 when deducted from the Rs. 24,484-8-3 adds so much to the increase which comes to Rs. 9,737-13-7. It is earnestly hoped, that this increase will not only be lasting, but capable of further augmentation, according as the system gains an extensive scope and the cultivating classes, who still look askance at the innovation, are made to realise the benefits thereof.

16. It is noteworthy, that the *Halbandi* system, which prevailed more or less in Santpur (exclusive of the Bhakar District), Pindwara and Rohera has now been completely abolished and the *Bhog Batui* system—in other words, a system whereby the cultivator is rendered liable to pay to the State in kind a share of the produce varying from one-fifth to one-seventh thereof—substituted instead. The importance and intrinsic advantage of the substitution may be readily gauged by the fact that, while the cultivator was free to cultivate any

quantity of land at his option and convenience by *Halbandi* on payment of a nominal sum of Rs. 3/- to the State, which was subsequently raised to Rs. 5-4-0 per *Hal* or plough, he will necessarily now be compelled to be more diligent in his pursuits and cultivate as much land as would suffice for his own purposes after paying the State's dues. On the other hand, the greatest satisfaction to the cultivator, which he has learnt fully to appreciate, is, that during a bad season he will not be bound to give anything more as the State's due or share than the prescribed ratio of such harvest as he may have reaped, be it what it may. Thus, then, it has been the firm aim of the State to render the system advantageous alike to the State and to the ryots themselves, and it has now been satisfactorily demonstrated that by a systematic and well-regulated Land record not only has the State greatly profited but the ryots also, whose present pecuniary circumstances exhibit a marked improvement, as compared with former years.

17. It is also satisfactory to note, that four villages, which lay deserted for a series of years, have been re-established by immigration from other parts, *viz.* Mergadh, Sakuda and Kiari, in the Santpur Pargana, and Fulabai-ka-wada in the Rohera Pargana.

18. The subjoined comparative table will show the number of new wells worked by Persian wheels, constructed and renovated subsequent to 1902-1903, showing an increase of 191 wells, the majority of which having been built by the cultivators from remissions allowed them for the purpose by way of monetary help by the State, are strictly the property of the State :—

Year.	Santpur.	Rohera.	Pindwara.	Total.
1902-1903 	175.	83.	147.	405.
Since constructed	231.	166.	199.	596.
Increase 	56.	83.	52.	191.

19. Before dismissing the subject of the Talati system, it is interesting to note here that, acting upon the suggestion of Mr. Lallubhai Bhimbhai, the State's Land Revenue Officer, an experiment was tried by sowing Egyptian cotton in one acre of land within the limits of the Santpur Pargana, and it is most gratifying to say that the experiment proved a decided success. 4 lbs. of seeds were sown, which cost only Rs. 1-8-0, whereas, considering the thriving state of the crop, it is fully expected that the total outturn will not be short of 15 Bengal Maunds of uncleaned cotton which at the normal rate of Rs. 12/- per maund would fetch Rs. 180/-. It is proposed to introduce the cultivation of Egyptian cotton in all the Parganas subordinate to this State, as the soil seems to be suitable, and if all goes well, there can be but little doubt that an era of intrinsic prosperity will have been opened out for the State and its subjects, who, as it is, have been entirely carried away by the bright prospects presented by the experiment tried at Santpur.

20. Proceeding, then, to the Land Revenue of the entire State as a whole, it will be seen, that the actual collections during the year from fixed Land Revenue was Rs. 40,071-9/- and those from fluctuating Land Revenue Rs. 1,03,595-9-6 or Rs. 1,43,667-2-6 in all, deducting from which the collections

in the three Parganas of Santpur, Rohera and Pindwara, *viz* Rs. 75,612-10-11, and those in Sirohi, Monnt Abu and Posalia, *viz* Rs. 24,484-8-3, there remains a balance of Rs. 43,569-15-4, representing the actual realizations of the other five Parganas, *i.e.*, Jhora, Magra, Panera, Anadra and Madar. The disparity is at once apparent and clearly goes to show that, were the Talati system introduced throughout the State, which would, of course, be a work of time, the annual yield from land would be increased at least three-fold, if not more, and the system rendered a *jait accompli*.

21. At page 9 of the Administration Report for the year 1903, reference was made to the settlement with the Rawals, who enjoyed lands in *Mafi* from the State for miscellaneous services which were formerly exacted from them, such as standing bail for refractory Jagirdars, attending on the Chief and his near relations when they went out on tour from the capital, carrying letters and messages, or invitations on occasions of marriages and other ceremonies, and the like. These services having long since fallen into disuse, the *Mafi* formed an unnecessary burden on the State, and the first opportunity was seized during the famine of 1899-1900, when the Rawals were put to the necessity of applying to the State for money and other help, which was accorded to them, in impressing upon them the impropriety of continuing the *Mafi* any longer when no services were taken from them, and asking them to enter into a settlement with the State to forego the *Mafi* and undertake to pay the State's share as its dues. A settlement was accordingly come to, whereby the *Mafi* has been abolished and the Rawals brought under the category of ordinary rent-paying cultivators. Such of them as have not yet come to terms will, it is hoped, not take long to do so, and the State will thus be absolutely relieved of a meaningless alienation which has hampered its revenues up to now. More than Rs. 25,000/- were paid away by way of help to the Rawals.

Settlement with Rawals.

CHAPTER III.

Protection.

22. There are no codified laws adapted to the Sirohi State. Civil and Criminal Justice being dispensed by assimilation with the laws of the British Legislature and in accordance with the usages of the State, and the orders and circulars made and issued, as occasion required, by the Darbar. The State is, however, alive to the necessity of a set of codified laws and rules suited to its requirements and it is hoped that the *desideratum* will soon be supplied and the litigant public better informed.

Legislation.

23. Appendix No. II is a list of the laws in force in the Sirohi State.

24. The State Artillery remains the same as in the preceding year, being composed of 8 guns and 5 gunners and it is utilized for the sole purpose of firing salutes on prescribed occasions. The State Infantry, too, remains unaltered, numbering 120 fighting men (including officers) equipped with muzzle-loading guns and bayonets and they are utilized as Jail-guards at the Capital, for guarding the Palace and in repressing crimes, or disorders amongst refractory Jagirdars. Appendix No. III gives the details of the State militia.

Army.

Police.

25. Appendix No. IV gives the strength and cost of the State Police, from which it will be seen that the only addition to the strength in the year under report was the appointment of one Inspector of Police, whose services were much needed. The entire force, therefore, numbers 676, including the officers, and the total cost has been Rs. 47,124-9-6, apportioned in localities, or circles noted in the subjoined table:—

No. of circles.	Names of circles.			Officers.	No. of Thanas.	No. of Chaulkies.
1	Khuni and Jhora-kharal	...		Naib Foujdar ...	15	...
2	Magra and Pamera	"	17	1
3	Madar and Anadra	"	11	...
4	Santpur and Bhakhar	"	14	7
5	Rohera and Pindwara	"	20	6
6	Abu	Jamedar ...	2	16
7	Abu Road	"
8	Sirohi	"	1	11
Total ...	8 Districts or Police circles			8	80	41

26. A few mounted constables, or sowars, and some constables are maintained at the capital as reserve police, and they are used as escorts on ceremonial occasions and on miscellaneous duties.

27. Appendix No V sets out the number of offences committed during the year, as compared with the preceding year, *viz*: 853 as against 731 in 1906-1907, or an increase of 122. This increase is due to a larger number of complaints having been received under hurt, Cattlelifting, Theft, Highway-robbery and House-breaking, than in the previous year. While this is so, on the one hand, the number of complaints under other heads were far less than in 1906-1907, on the other. Fluctuations of this kind are not uncommon, as a comparison of appendices Nos. VI and VII for the two years will show.

Criminal Justice.

28. During the year under report 8 cases were committed for trial to the Sessions Court of the Diwan, involving 10 accused. Only one case remained undisposed of in this Court at the termination of the year, the previous year's arrears being cleared off. The Judicial Officer, exercising the powers of a Magistrate of the First Class, convicted 197 accused, acquitted 205 and committed 10, while the Tehsildars, or Magistrates of the Third Class, convicted 480 accused and acquitted 364 (*vide* Appendix VIII).

29. Appendix IX shows the number of Criminal Appeals admitted and disposed of during the year, including those which were pending at the end of the previous year, and it will be seen, that the Darbar dealt with 6 appeals, the Diwan's Court with 20 and the Court of the Judicial Officer with 13.

30. Appendix X shows the number of Civil Suits received and disposed of during the year, including those which remained undisposed of at the end of 1906-1907. The Court of the Diwan disposed of two suits, that of the Judicial Officer 108, that of the Special Court 20, and those of the Tehsildars 709. The aggregate value of the suits disposed of amounted to Rs. 62,748-10-9.

Civil Justice

31. Appendix XI shows the number of applications received in execution of decrees and the result of such executions. 24 such applications were disposed of by the Judicial Officer, 7 by the Special Court and 47 by the Tehsildars. The total amount of the Decrees sought to be executed was Rs. 9,481-13-3.

32. From appendix No. XII it will be seen that 20 Civil Appeals were disposed of by the Darbar, 12 by the Court of the Diwan and 33 by the Judicial Officer.

33. During the year under report one accused was extradited from Marwar to Sirohi, one from Sirohi to Marwar, and two were made over to Government. The Extradition Agreement between Sirohi and Marwar, mentioned in para 44 of the last report, has since been approved by the Hon'ble the Agent to the Governor General for Rajputana.

Extradition.

34. Revenue cases relating to *Kapur-bab*, *Khola-bab*, *Sagpun-bab* and succession of new Jagirdars, amounting to 79 in number were disposed of during the year.

Revenue cases.

35. Appendix No. XIII shows that there were 228 admissions during the year in the Central Jail, and that at the end of the year 113 convicts were left therein. The total cost of maintenance amounted to Rs. 5,268-5-3. It is a matter for congratulation that, although Plague prevailed in Sirohi somewhat virulently, the prisoners enjoyed absolute immunity therefrom, nor was there any complaint affecting the conduct of the prisoners on any score whatsoever.

Jail.

36. The experiment introduced last year of weaving carpets in the Jail still continues, but, from want of demand for them, the results have not been very encouraging. At any rate, the tuition acquired by the prisoners in this line will be the means of securing an honest livelihood for themselves on the expiration of their terms of imprisonment. A small garden has been formed within the Jail Compound, which is watered from a well worked with persian wheels, as a source of facility to the prisoners, who were put to the necessity of working at the moat. A sufficient quantity of vegetables is thus produced for consumption by the inmates of the Jail.

37. No registrations were effected during the year under report (*vide* appendix No. XIV and XV).

Registration.

38. There are, at present, three Municipalities in the Sirohi State, *viz* at Mount Abu, Abu Road and Sheoganj. That at Mount Abu is administered by a Committee composed of the high officers of Government, the State paying an annual contribution, which has been increased from Rs. 3,000/- to Rs. 8,000/- on the recommendation of the Hon'ble the Agent to the Governor General for Rajputana. Those at Abu Road and Sheoganj are in the hands of the local State Officials, who are assisted by the local Hospital Assistants in matters of sanitation. The income and expenditure of the former was Rs. 1,261-7-6 and Rs. 1,530-3-3 respectively, whereas those of the latter were Rs. 468-13-6 and

Municipalities.

Rs. 697/- respectively, (*vide* appendix XVI). The increase in the expenditure at Abu Road is due to new filth and other carts having been constructed and the old ones condemned.

39. It would not be out of place to mention at the conclusion of this Chapter, that a body of native youths of Sirohi had started a club called the Union Club, for the purpose, as originally put forward by them, of discussing religious and social subjects; but as time progressed, it was discovered that Boycott, Swadeshism and such like themes detractive of the moral tone of the State, which had hitherto been maintained unsullied, were being freely talked of and discussed in the club. It was, therefore, considered desirable to nip the evil in the bud, by directing that the club should forthwith be broken up, and a Proclamation forbidding the convening of public meetings or assemblies of all kinds soever (except for strictly commercial and caste-panchayat purposes) without the previous sanction of the State was issued, and all attempts to discuss or speak on subjects calculated to sow sedition, or discontent, among the people were rendered penal, the police being enjoined to exercise due vigilance that the conditions of the Proclamation were in no way violated or disobeyed. A translation of the Proclamation is hereto annexed (marked Appendix A).

CHAPTER IV.

Production and Distribution.

40. The total rainfall during the year was 40 inches, 7 cents (*vide* Appendix XVII). The Kharif crop of 1907 was ten annas in the rupee, owing to failure of later rains. The Rabi crops, however, were 15 annas in the rupee, which compensated, in a measure, for the short outturn of the Kharif crop. A reference to Appendix No. XVIII will show, that the prices of staple food grain were far in advance of the past year, due mainly to the deficiency in the Kharif crop and the large exportations made to other parts where scarcity prevailed, in that 7,417 maunds of grain were exported in 1906-1907, whereas 37,171 maunds were exported during 1907-1908.

41. The market for labour wages remained unaltered throughout the year.

42. Appendix XIX shows the expenditure incurred under this head during the year. The Military lines at Sirohi underwent important additions to render them more commodious for the troops. This cost Rs. 548-13-0. The work of the carriage-shed was also continued this year and the plastering thereof completed, while the eastern wall of the shed, though taken in hand, had to be deferred for inadequacy of materials combined with heavy down-pour of rain. The work so far as it had proceeded cost Rs. 819-5-0. Rs. 1,451/- were paid as compensation for a house and land required for the shed.

43. The segregation camp at Abu Road near the Idgah was built with masonry at a cost of Rs. 1,275-2-6. A new granary was constructed at the Santpur Tehsil costing Rs. 904-1-6. A new Thana was also constructed at Chinia-band subordinate to the Pindwara Tehsil, while certain additions and alterations were made to State buildings.

Season and crops.

Wages.

Public Works.

44. Special repairs to public buildings, such as the State Court-houses at Abu, Pindwara and Sirohi, Palace buildings, Jail and dispensaries etc. were carried out at a cost of Rs. 3,349-10-9. No new roads were constructed during the year, while ordinary repairs to existing roads were executed at an outlay of Rs. 391-9-6, as follows :—

- (1) The Sirohi-Pindwara Road.
- (2) The Rohera-Kotra Road (within Sirohi limits).
- (3) The Kharari-Ambaji Road Do.
- (4) The Delwara-Dhundai Road.
- (5) The Road from Sirohi Palace to Kaiser-Bilas garden.

45. The new tank work inaugurated in Sirohi during the prevalence of the famine was again resumed this year and made good progress. The sluice-gates ordered from Bombay did not, however, arrive in time.

46. 8 new wells were constructed during the year, of which 7 were covered by Parwanas granted to the Bohras, the latter costing Rs. 3,673/-. In like manner, Parwanas were granted to the Bohras for repairs and reconstruction of 14 old and dilapidated wells, which cost Rs. 3,788-12-0. Ordinary repairs to the old Sirohi, Chundela, Sabela and Jubilee tanks were also made at a cost of Rs. 274-3-9, while 7 old wells were repaired at a cost of Rs. 109-0-6.

47. The forest establishment consisted of one Forest Ranger, 4 Foresters, 3 Clerks and 44 Forest Guards, the Office of Deputy Forest Ranger, which was *ab initio* temporary having been abolished. The total income under this head during the year under report was Rs. 31,160-14-3 and the expenditure Rs. 5,602-1-9, showing a *net* revenue of Rs. 25,558-12-6. As mentioned in last year's report (para 60) a Committee composed of the Resident, Western Rajputana States, as President, and the Magistrate of Abu, the Diwan of Sirohi and the Forest Ranger, was formed to devise measures for the management and administration of the Abu Forests. Several meetings of the Committee were held, the result of which evolved itself in certain recommendations by the Committee for the consideration of the Darbar, some of which were approved and ordered to be put into force from the next year.

Forests.

48. Included in the foregoing figures of revenue are Rs. 7,301-11-0 derived as quarrying fees.

49. The revenue from Customs amounted to Rs. 1,54,513-11-6 and the expenditure Rs. 35,707-7-3, as against Rs. 1,73,718-2-9 and Rs. 33,722-15-3, respectively, during the preceding year. The decrease in the current year's income is due chiefly to the enormous quantity of Til seed exported last year, the duty on which alone amounted to Rs. 21,860-5-0, whereas that derived from the same commodity this year was Rs. 2,876-7-9 owing to a total failure of Til crops consequent upon absence of late showers. It need scarcely be remarked that the Customs Revenue, as such, depends solely on the rise or fall in the trade and commerce of the country according as the season is favourable or otherwise, and it would be hoping against hope to expect that, because there was an abundance of growth of one description of commodity, which commended itself to European markets in one year, the same good fortune would attend the next year.

Customs.

Trade.

50. The trade in hides, and the Tannery at Kharari are progressing satisfactorily, while coarse weaving and dyeing and printing of cloth are receiving steady impetus.

51. Messrs Moonalall and Sons' Ice Factory still continues paralyzed, but movements are on foot to resuscitate it.

52. The Kaiser Indian Sugar Manufacturing Company Limited have acquired a plot of ground from the State on permanent lease for the construction of a Sugar Manufactory at Kharari. The building is in course of construction. Disposed to give the enterprise every facility, the Darbar have conceded liberal terms, which, it is hoped, will be turned to good account by the promoters.

General condition of
the State and people.

53. The general condition of the State and people is all that may be expected. The people avail themselves freely of the State's jungles and make ends fully meet by marketting the produce thereof and overcoming the dearth in the necessaries of life.

Post and Telegraph Offices.

54. The Post and Telegraph Offices remained the same as in last year.

Mint.

55. No mint ever existed in this State, and the necessity for one has disappeared by the introduction of British currency throughout the State.

CHAPTER V.

Revenue and Finance.

56. The financial condition of the State is on the highway to improvement. The Maharaj Kunwar Saroopsinghji Sahib's marriage this year, though costing Rs. 1,31,141-12-9, did not become a burden on the State, as the entire expenses economically arranged, were met from the Tika and other moneys received in honour of the occasion. The total income of the State was Rs. 4,84,682-15-6 as against Rs. 5,09,144-1-6 in 1906-1907, showing a deficit of Rs. 24,461-2-0, which is due chiefly to the falling-off in this year in the receipts under "Law and Justice," "Customs," and "Extraordinary receipts," all of which are of a fluctuating nature. The total expenditure was Rs. 3,92,945-1-3, as against Rs. 4,53,370-2-6 in 1906-1907, the credit balance at the close of the year being Rs. 91,737-14-3, out of which amount Rs. 86,492-15-3 were devoted towards the liquidation of the State debts, leaving a cash balance in hand of Rs. 5,244-15-0. Rs. 30,719-0-3 were thus paid in liquidation of the State debts this year in excess of the past year.

57. Of the items of expenditure over the Budget allotments the following may be noticed:—

(a) Under the head of "Household expenses" the Budget grant was exceeded by Rs. 5,224/- owing to the Maharaj Kunwar Sahib making a long stay at Ajmer and Indore.

- (b) Under the head of "Administration" the grant was exceeded (1) by Rs. 3,834/- the cost of providing new uniform for the Police, and (2) by Rs. 5,779/- in having had to pay larger amounts as customs remissions to traders and meeting the Jagirdars' dues.
- (c) Under the head "Miscellaneous" the grant was exceeded (1) by Rs. 1,920/- for Sarpao sent to H. H. the Maharawal of Dimgarjur on the occasion of the birth of his son and mourning symbols sent to H. H. the Maharaja Gaekwar of Baroda on the death of Maharaj Kunwar Fatehsinghji Sahib; and, (2) by Rs. 3,390/- paid as rewards to officials of the State in connection with marriages in their families.
- (d) Under the head of "Extraordinary expenses" the grant was exceeded by (1) Rs. 6,390/- spent in connection with *Anas* of the three Baiji Sahibas; and (2) by Rs. 8,756/- spent in entertainments given at Mount Abu in honour of the Maharaj Kunwar Sahib's marriage and in the *Ana* of the Kunwaraniji Sahiba.

Debts.

58. The total debts due by the State at the close of the last year amounted to Rs. 4,47,463-3-5 and the accrued interest for the year was Rs. 17,645-2-9 making a total of Rs. 4,65,108-6-2, out of which Rs. 86,492-15-3 were paid in liquidation, leaving a balance due of Rs. 3,78,615-6-11 at the end of 1907-1908.

59. To avoid misconception it might be noted here that the foregoing balance of Rs. 3,78,615-6-11 includes a sum of Rs. 76,482-14-3, which, strictly speaking, does not form a liability due by the State. Large balances to the credit of various temples and shrines lay for a considerable time with divers Sahukars which it was thought prudent to invest in works of public utility, such as would reap a reasonable return by way of profit, or interest, to the institutions concerned. They were, therefore, utilized in the construction of the Jubilee tank and the new tank at Sirohi, which latter is still incomplete. The annual yield from these tanks in the form of cultivation will, in the first instance, go towards the recoupment (with interest at 3/ per cent) of the various balances thus utilized and invested. The State debts *proper*, therefore, count at Rs. 3,02,132-8-8 only.

CHAPTER VI.

Vital Statistics.

60. Appendix No. XXIII shows the extent of medical relief afforded in the State during the year under report at the Crosthwaite Hospital at Sirohi and the Dispensary at Sheoganj, both of which are maintained at the sole cost of the State. The Dispensaries at Mount Abu, Abu-Road and Erimpara Cantonment are subsidized by Government, supplemented by private subscriptions. The total number of out-door and in-door patients treated at the

Dispensaries.

Crosthwaite Hospitals were 5,812 and 79 respectively and those at the Sheoganj Dispensary 6,709 and 48 respectively. The Residency Surgeon, Western Rajpootana States, continues to render invaluable advice and help to the Hospital Assistants in charge.

Vaccination

61. The total number of children vaccinated during the year was 7,174 against 6,103 during the preceeding year.

62. The total cost of the Medical Department of the State amounted to Rs. 3,086-2-0.

63. Appendix No. XXIV shows the Births and Deaths in the larger towns of the Sirohi State. The death-rate during the year under report, as compared with the past, presents a notable increase in so far as Sirohi City is concerned, owing to the outbreak of the plague, which, notwithstanding the most vigilant measures exercised, lasted for about 3 months. The total number of attacks was 149 of which 120 proved fatal.

64. The first case of plague occurred at Rampura, situate about 2 miles from Sirohi City, on 12th December 1907 ; the total number of attacks therein was 14, of which 12 proved fatal. The infection was carried to Sirohi City, after which it was imported to Goeli, also about 2 miles from Sirohi, where 59 were attacked and 53 died. Col. R. C. Maewatt, the Residency Surgeon, was, as usual, foremost in his exertions in combating the epidemic.

65. 151 persons underwent antiplague inoculation in Sirohi City at the hands of the Residency Surgeon himself, of which number only 1 woman contracted the disease and that at a very short period after she had been inoculated. If this shows any thing, it shows beyond the shadow of a doubt, that inoculation is a sure preventive against plague and, if opportunely resorted to, is calculated to yield marvellous results.

66. His Highness the Maharao Sahib Bahadurji personally stayed at Sirohi for a month to supervise the plague operations in Sirohi. Mr. Maganlal Moji Lal Mehta, Judicial Officer, was the first to undergo anti-plague inoculation and rendered good assistance during the prevalence of the disease at Sirohi, which was duly appreciated by the Darbar by the grant of a reward to him. The Subedar or Head of the Infantry exercised strict watch and ward in the course of the day and the Risaldar by night, under the supervision of the Judicial Officer, with the result, that not a single crime was committed during the out-break in Sirohi, when it was temporarily vacated by the people.

CHAPTER VII.

Education.

67. Appendix No. XXV shows that at the Darbar School in Sirohi there were 39 pupils on the roll against 59 in 1906-07, the decrease being due to the prevalence of plague in the locality and the consequent withdrawal of the boys. The school along with the other two at Abu-Road and Mount Abu are Anglo-vernacular schools. There are primary schools also scattered throughout the State, which impart elementary tuition in the Vernacular.

68. The Scholarships granted by the Darbar to students at Jaipur still continue ; those granted at Ajmer have been withdrawn, as the boys were certified by the Principal, Ajmer College, to be dull and incapable of prosecuting their studies.

69. Both the students referred to in the last year's report have been successful at the Rajputana Middle School Examination for which they were sent up after completing their Middle Course.

70. The total cost of Public Instructions this year was Rs- 1,207-3-9.

CHAPTER VIII.

Miscellaneous.

71. In Sirohi the criminal tribes are mainly the Bhils and Minas. At the end of the year under report their number on the register was 131. These were scattered over the following localities :—

Criminal Tribes.

Locality	Number of persons.
Perganah Khumi	40
„ Sirohi	1
„ Kharal	24
„ Jhora	2
„ Magra	11
„ Pamera	8
„ Madar	24
„ Anadra	7
„ Santpur	7
„ Rohera	7

Total ... 131

72. The Lithographic Press referred to in para 88 of last year's report still exists and continues to do good and efficient work, whereby extraneous heavy printing charges have been saved. The staff consists as heretofore of a pressman and an assistant, the manual labour being invariably done by the prisoners undergoing incarceration in the Sirohi Jail.

Lithographic Press.

73. In para 87 of last year's report reference was made to the demise of Raj Sahibah Tejsinghji Sahib and the succession of Raj Sahiban Dalpatsinghji Sahib. Disputes, however, arose between the widow of the deceased and his sons, and between his sons *inter se*, regarding an apportionment of the Jagir. The matter was one which admitted of many complications, but has since been brought to a thoughtful close.

Death and Succession of Jagirdars.

Conclus.on.

74. His Highness the Maharao Sahib Bahadurji has in his usual solicitude for the efficient despatch of the business of the State, absorbed the best of his leisure hours in personally looking into the records of the administration and giving necessary instructions to his officials.

75. The office of the Resident, Western Rajputana States, has changed hands during the year under report. Lt. Col Stratton and Messrs Cobb and Gabriel having had their respective shares in supervising over the affairs of the State, and to all these officers the State is deeply grateful for the valuable advice received from them from time to time and the great interest evinced by them in the welfare of the State.

MILAPCHAND A.

Diwan Sirohi State.

APPENDIX A.

Whereas attempts are being made in India (British) for some time past to create disaffection or hatred towards the Rulers and to disturb the happy relations existing between rulers and subjects and to impede the growth of loyal sentiments among the people by means of speeches on Swadeshism, Boycott and Swaraj etc., as also through newspapers and by other means, and with a view to prevent the spread of such (movements) in this (State), His Highness the Maharao Sahib Bahadurji of Sirohi, having expressed his desire to pass an Act for that purpose to operate within the limits of the Sirohi State, it is enacted as follows :—

1. This Act is passed as sanctioned by His Highness and it will come into force from 1st Septemder 1908.

2. This Enactment is styled an Act directing the subjects of His Highness to keep aloof from (all manner of) Political Agitation and to prevent the growth of feelings of sedition and discontent towards (the person of) the Akai Namdar Darbar Sahib Bahadurji (and his Government) as also towards the British Government.

3. This Act contemplates and includes (the suppression and prevention of) such feelings as those of sedition against the State as also what is termed hatred and such acts as are prohibited by the Indian Penal Code and such as are calculated to be opposed to (the interests of) the State and others besides, which, in the absence of any other, aim at spreading or publishing views, ideas or opinions relating to the "Swadeshi" movement, "Boycott" Swaraj etc., through speeches or newspapers or handbills or through manuscripts.

4. It is incumbent on every subject (to see) that such acts or attempts as are declared to be against the State in section 3 should not be done under any circumstance within the limits of the State.

5. Newspapers which create or are likely to create feelings against the Sirohi State or against the British Government should not be subscribed to in any public library and further, every care should be taken to prevent the spread, circulation or perusal of such newspapers as have been declared by the British Government as being in the habit of publishing seditious writings or as may be declared to be such in future, together with such newspapers, the sale or purchase of which has been or may in future be generally prohibited by the British Government.

6. (It is hereby ordered) that until any other order is passed no club or association or meetings should be established, started or held without the permission of the State, the object of which is Political Agitation or lectures or discussions relating to moral, social or public reforms.

7. Should it be desired to start any club or association or society, etc., the object of which is to hold discussions with reference to public affairs or moral or social reforms, or to promote the interests of religion referred to in Section 6, a written application stating such desire and setting out in detail the objects, should be made to the State. If after due consideration, the State thinks it fit and permissible, it will grant permission for starting such a body on such conditions as it may think fit.

8. No person who resides outside the jurisdiction or the territorial limits of this State can do such acts within the territory of the State, or enter the territory of the State, with the idea of doing acts prohibited under section 3. Should any person, however, desire to give lectures on matters described (or referred to) in section 6, *i.e.* on subjects moral or religious, it will be his duty to submit a written application to the principal local officer of the place (or portion of the State territory) where he wishes to give lectures, supplying him with every minute information relating to the nature and purport of the lecture, and to obtain his sanction in writing for that purpose, without which he will not be allowed to deliver any such lectures.

9. Any association or society, having for its object the promotion of moral or social reform, and, established after the necessary permission has been obtained from the State, will be summarily stopped if it is found to transgress the limits of its aims and objects, and to promote other movements. Any person who has been granted permission to deliver a lecture as stated above, will be immediately stopped from proceeding therewith should he be found to digress from his subject and dwell on other movements (or topics foreign to his subject), and he will further be punished as stated below in section 11.

10. It will be the duty of all the subjects of this State not to enter into correspondence of any sort or kind with any political association already started or which may in future be started outside the limits of the State, with objects hostile to this State or to the British Government. Should a newspaper or handbill or manuscript issued by such a body or association be found within the limits of the State territory, it must be handed over to the head police officer of the State and no attempt should be made to give the least publicity to any such (newspaper, manuscript or handbill) among the people.

11. Whoever acts contrary to the spirit, or in breach, of the whole or any portion or section of this Act will be punished as follows:—

- (1) If the offence is one falling under any section of the Indian Penal Code, he will be dealt with according to the provisions of that Code.
- (2) If the offence is one not so falling, and yet in contravention of the rules framed under or sections comprised in this Act, the person found guilty and convicted of such offence will be sentenced to six months' imprisonment, rigorous or simple as may seem proper, and, in addition, to a fine of Rs. 1,000/- (one thousand). If the person committing such offence be a servant of this State he will be sentenced to a further term of 6 months' imprisonment and his services will be permanently dispensed with.

Exception.

This Act is not intended to affect in any way or to prevent or discourage, the aims and objects, or the working, of any body of tradesmen, who meet or are formed for purposes of trade, or any caste-punchayet who meet for social or religious purposes or discuss matters relating to those purposes. It is not necessary for such bodies to obtain any permission for such purposes.
